

Irfan Ullah Khan

Software Engineer || Data Engineer

Personal Info

 irfanee125@gmail.com

 +4915510149331

 Stuttgart, Germany

Education

- **MS Computer Engineering**
University of Padua
Feb 2022 - Nov 2025
Study Track: Web Applications and Data Engineering
- **BS Software Engineering**
COMSATS Institute of Information Technology, Wah
Feb 2016 - Mar 2020

Skills

Coding (Java, Python, PHP, .NET) - Expert

Database - Expert

Frameworks & Web Technologies:
Vue.js, Node.js, Spring Boot,
HTML, CSS - Expert

Languages

English - Fluent

German - Basic

Italian - Basic

Introduction

Dynamic Software Engineer skilled in Python, Java, JavaScript, and PHP with hands-on experience in full-stack development, containerized environments, and version control. Passionate about back-end systems, data engineering, and machine learning, with a strong drive to build efficient, data-driven solutions and contribute to innovative projects involving model deployment and API design.

Work Experience

Backend Developer, Mintra, Remote

October 2021 - June 2022

Developed full-stack solutions using PHP (Twig), Java (Spring Boot), and React.js, managing Docker environments, Git workflows, and Jira-based project tracking for efficient delivery.

Teacher Assistant, University of Padova (Contract), Padova

October 2022 - January 2024

Guided undergraduate students, enhancing their skills in Java programming while supporting weekly lab activities.

Projects

Data Modelling and Engineering

October 2023 - January 2024

Developed a football data analysis project using a Kaggle dataset, performing data cleaning, visualization, and RDF conversion in Python. Created an ontology in Protégé and ingested RDF data into Ontotext GraphDB to execute SPARQL queries for insights.

Online Clothes shopping system

February 2023 - May 2023

Developed an online clothing store with user authentication, product catalog, and checkout system using HTML, CSS, JavaScript, Java Servlets, and PostgreSQL.

Desktop Chat Application

March 2023 - June 2023

Developed a real-time chat application with client-server architecture, Java Swing/JavaFX interface, and database-backed message storage using Java Sockets.

Online Courses

Data Analysis with Python, IBM

March 2025 - March 2025

Building Knowledge Graphs with LLMs, Neo4j

March 2025 - March 2025
